PLATE STOCK PLAN (LOCAL)

Our reputation as a supplier of special alloys is founded on supplying bar, pipe and pipe packages, cut-to-size plate and welding consumables over many years. This we have done this drawing on the stock we hold locally as well as that available to us overseas.

We are now also well placed to supply **full plate**, again from our own stock or, if appropriate, from that available to us overseas. The plate we have in our **local** stock program is:
