COMPANY PROFILE

Multi Alloys, founded in 1997, is a leading supplier of stainless steel and special alloys to South African industry. **Multi Alloys** operates from Midrand and our extensive stockholding, which represents our commitment to customers, is based on experience gained by listening to our customers over many years. Our dedication to service the local industry has resulted in us responding to requests to stock additional alloys and forms and we would be delighted to discuss your unique requirements. We have expanded our stockholding to include:

PLATE, PIPE AND BAR IN:

Alloy 904L Alloy 2205 Alloy C276 Alloy 310 SAF 2507®

PIPE AND/OR BAR AND/OR PLATE IN:

Alloy 400 Alloy 600 17/4PH Titanium Gr 2, 5 253MA®

WELDING CONSUMABLES FOR:

Alloy 904L Alloy 2205 Alloy C276 Alloys 400, 600 SAF 2507®

AND SELECTED ITEMS IN GRADES:

Alloy 25 Cu-Be ToughMet® CX105 Alloy 446 / 4C54® Alloy 1.4313

Multi Alloys also supplies a very extensive range of grades and product forms to customer-specific requirements. All items, from both stock and imports, can be offered on a “cut - to - size” basis. A range of PRECut plate has been introduced to cater for customers with urgent requirements for sizes of plate that are smaller than the mill standards.

Multi Alloys recognises and acknowledges the importance of prompt delivery and accurate information on order status and for this reason our supply chain partners are large and reputable companies. Our information and quality management systems are essential tools in ensuring we are able to satisfy customers' requirements consistently. We are ISO 9001:2015 approved and Level 4 Certified in terms of B-BBEE Act 46 of 2013.

Multi Alloys has a proud record of providing technical support and data to operating plants, and fabricators faced with material related problems and decisions. A particular strength is our ability to source difficult to obtain alloys as well as to offer alternatives based on our understanding of the technical requirements. We have a team, with many years of relevant technical and commercial experience in our industry, at your service and we endeavour to do this with courtesy, efficiency and dedication.

ALLOW US TO SERVE YOU.
